Notable features:

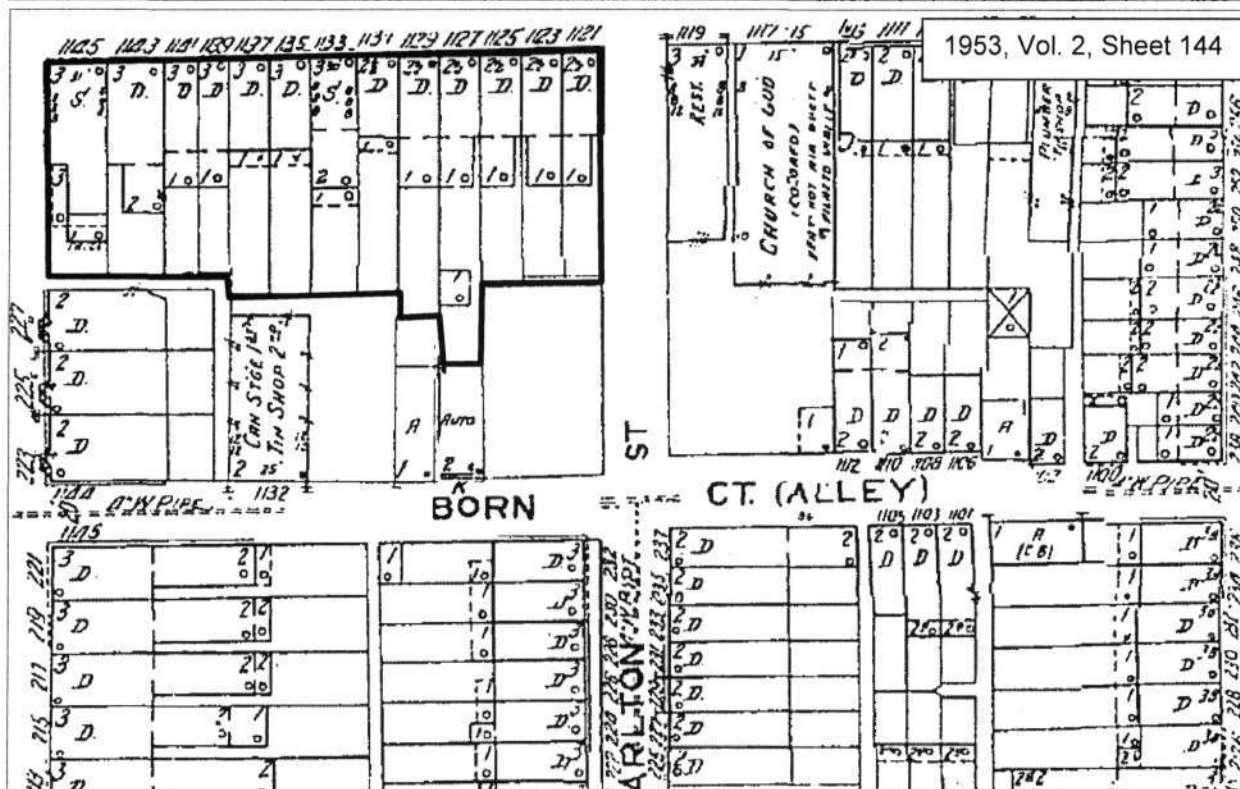

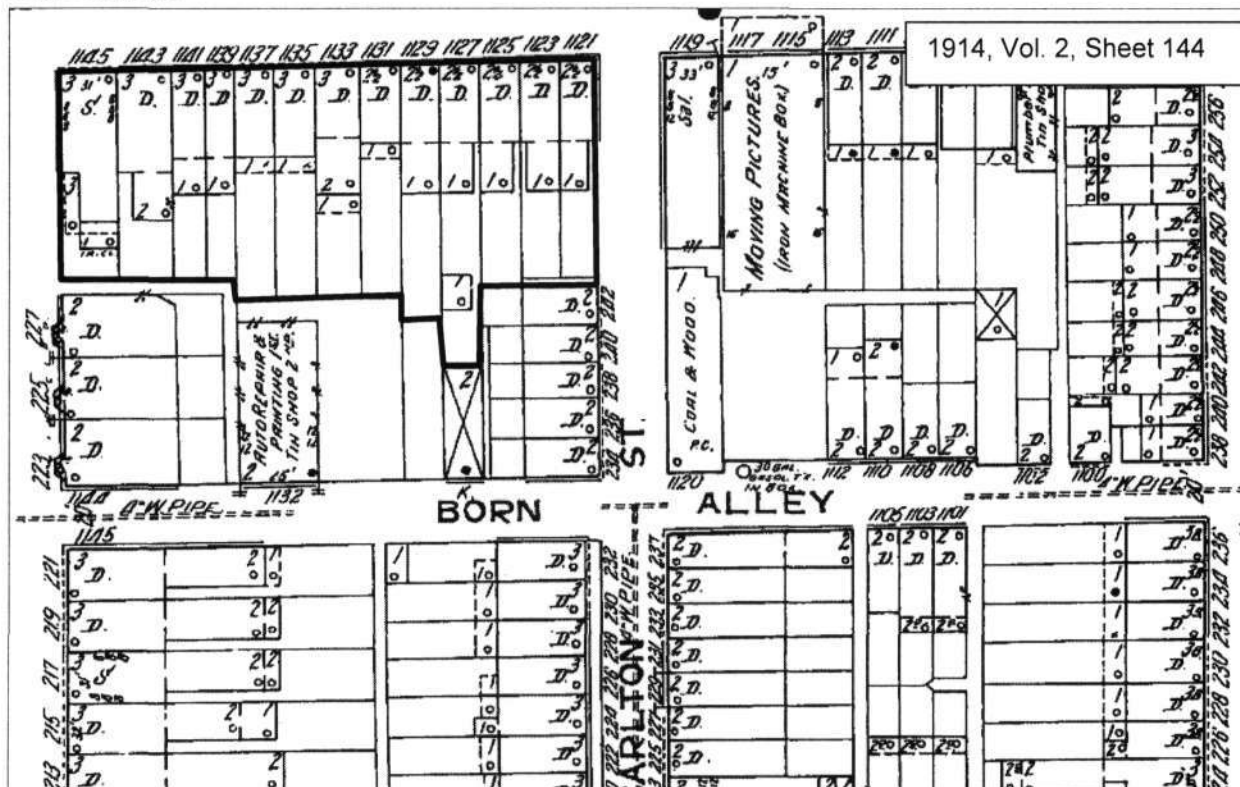

Despite the vacant lots, this terrace should be rehabilitated; it is a case where infill housing might be used to good effect so long as the new equates in scale, window lines and roof type with the old. Numbers 1125-1129 have been formstoned; 1135 has a new front. Number 1145 is a presentable Poppleton corner building but needs refurbishing and design aid. Trash cans on this corner sidewalk are the only ones observed in the entire area.

Environmental context:

Lots at 1133-1131, 1121 are vacant. The gaps and poor condition and vacated houses in the eastern half of the block give this area a depressive air; boarded-up display windows at the store at 1145 don't help. Saratoga is two-way, not terribly busy but needs street trees badly.
